10th
ANNIVERSARY

Commemorating 10th anniversary, the theme of Art Aquarium in Osaka 2016 is "TSUYA of KINGYO (charm of goldfish)". Since the Edo Period, KINGYO has been deeply rooted in Japanese culture for about 400 years, and people have bred the fish to create various kinds. Melding of art, light, sound and aquarium technology with lashings of Japonisme, Art Aquarium features all sorts of KINGYO in a series of stylized illuminated tanks.

Hidetomo Kimura has combined "art" and "aquarium" and created "Art Aquarium". Naming himself as "Art Aquarium Artist", he now finds charm of KINGYO and creates spectacles to lend a touch of summer.
